THIS is our first issue this year and we desire to say to our readers that we will hustle with our head and tail over the dash-board. We are much pleased with the outlook, having increased our subscription list 97 already. Republicans and Democrats have given us words of encouragement and paid in their "wheels" for the paper. We shall do our best to run a first-class local paper without incendiary speeches; without envy or malice; without vulgarity or venom, at all times reporting the news of our county and State. In a short time we shall have a complete set of able correspondents. On account of increasing work we have secured another printer. We have supplied the office with a new line of job type and our job work is steadily increasing. We shall set much more type; get more local happenings; State items of interest. We shall keep a close eye on the legislature and report it as full as possible. Give us time. We will show you that we mean exactly what we say. We are at the county seat. Every man should take that paper at the seat of government of his county—full Court notes; college items, and, in fact, everything worth printing and reading we will have in the SIGNAL. Therefore, take one yourself; if you do not take it now—if you do, then take it for some neighbor in this or some other county; in this or some other State. Help build up the SIGNAL and we assure you that we will strive to build you up and our county also.

GOV. TAYLOR has filled the places on the State Board of Election Commissioners made vacant by the resignation of Judge Pryor and Capt. Ellis. The 1596th Section of the election law says in plain language that one remaining member can fill a vacancy and that the two can fill a second vacancy. Section 152 of the Constitution says that all vacancies in offices for the State-at-large or for districts larger than a county shall be filled by appointment of the Governor. Is section No. 1596 in conflict with the 156th section of the Constitution? An injunction suit has been brought to test this question as to who has that right. Many able lawyers contend that the office of Commissioners is not an elective one and therefore does not conflict with above Section of the Constitution.

Gov. Taylor's message to the legislature recommends the repeal of the Goepel law. Some enlargement and revision of the revenue law, legislation enabling counties to supplement school funds by local taxation; a dormitory for young women students of the State College; A prison for female convicts; A non-partisan prison board; laws against mob violence and the use of cigarettes, steps toward a constitutional amendment allowing cities to regulate municipal taxation; remedial legislation on the local option question and the setting aside of a fund out of future revenues for new capital.

A SUI was filed by Attorney General Pratt in the Franklin Circuit Court at Frankfort Tuesday afternoon to oust C. P. Poyntz, John A. Fulton and Mortar K. Younts from office in order that they could not try the election contest cases for the minor places. Mr. Poyntz is charged with using a railroad pass with his appointment of Fulton and Younts as illegal.

By unanimous vote the joint caucus of the Legislature, Tuesday night, nominated that wise exponent of Democratic principles and one of the greatest of American orators, Hon. J. C. S. Blackburn for United States Senator. He will be elected Tuesday night week, January 16th, at which time he will receive 86 votes against a combined opposition of 56. Step down Mr. Lindsay and make way for "Old Jo!"

THE House Committee selected to investigate the charges against B. H. Roberts, of Utah, will report adverse to Mr. Roberts and recommend that he should not be sworn in because he has three wives.

Hon. "Abe" Friedrich is paid quite a high compliment by the Daily Miner, of Juneau, Alaska, which we know is of interest to his home people as he was born and raised in this county and married the beautiful Miss Bettie Newcomb, who was the only daughter of Stephen Newcomb. Mr. and Mrs. Friedrich have only one daughter, Miss Gussie, who is very talented and has made quite a reputation as a singer. She spent several years in Berlin where she was thoroughly trained. The much deserved accolade is as follows: The Alaska Bar Association, at its annual election of officers yesterday, paid a high and deserving complement to the U. S. Attorney, Robert A. Friedrich, by electing him its president for the ensuing year.

General Friedrich has only been with us for a little more than a year, yet within that time he has demonstrated to the bar and laymen alike that he is a lawyer of the highest ability and integrity, as well as a gentleman in all that the term implies.

In his position as prosecuting officer for the government, he has measured lances with the entire Alaskan bar and while he is known as a hard hitter, able and fearless, his manly course in public and private life has won for him the esteem and respect not only of the lawyers but of every reputable and law-abiding citizen of the district. Before coming to Alaska, Gen. Friedrich was recognized as one of the leaders of the San Francisco bar, and was one of the most prominent and popular Republicans in California.

He had several times been offered nominations for high positions in his state and congressional district, but uniformly declined, this being his first civil position he ever held. Since coming to Alaska as U. S. Attorney, his success in the conviction of criminals has been phenomenal, having surpassed all previous records.

His conviction of the "Soapy Smith" gang and scores of the law breakers, including some of the vilest murderers that ever cursed any country, has done more than all else to restore confidence to those having or contemplating the investment of capital in the territory, and to miners and prospectors in the far outlying district.

His fearless and faithful prosecutions have undoubtedly driven out large portion of the worst criminal element in the territory and have also prevented an influx to Alaska of those evil-disposed persons who had in the days of the Klondike rush terrorized Southern Alaska.

When you see, at Wildie, during the game season a big lot of rabbits, squirrels, quails, &c. don't ask who killed them, just ask which of the Branamon boys killed them.

Several of the boys got on a high on Sunday before Christmas and are now fleeing, as they have heard Judge Williams was on their trail.
